Memorandum

Letter No. $\frac{566}{125}$ of 29th Sept^r 1876,
from The Comm^r. Nagar
Division

Having thought it
expedient to augment the
strength of the Engineering
Staff of the Chitaldroog
District the Am. Comm^r.
discussed the subject freely
with the members of the
members of the
Committee and the Local
Head Ass^{te} Engineer and
in his letter No. 223 of 27th
May 1876 to the Comm^r.
made a proposal for
the increase of the staff
on the following grounds:
(1) The total Budget
amount of the District
for the current year is
Rs 94,328 while the
existing engineering strength
amounts

amounts to Rs. 9,760. of which, Rs. 1260 is debitable to Imperial Revenue, and Rs. 8500 to the District funds.

(ii) The Local Fund

Engineer. has recently had additional work thrown on his hands, viz. the charge of the Imperial lines of road from Hiriyor to the Bellary frontier, and from Chitaldroog to Malabennoor, on the Shimoga frontier.

(iii) There are but two Surveyors to assist the Local Fund Engineer, in the work of Estimating, planning, and general supervision; and it is exceedingly difficult to efficiently supervise, and carry out works in every part of the District.

of which there are a large number of one sort and another and which increases yearly

IV The Maestros are only competent to prepare the most trifling Estimates; but for the more important ones, it is necessary to ~~in the same~~ two more Surveyors as assistants on a salary of Rs. 60 and horse allowance of Rs. 15 each.

2. In his subsequent letter the Dy. Commr. urges the necessity for 2 lascar's for each of the proposed Surveyors and for a draughtsman at Rs. 40 per month, ^{the latter of} whom has to assist the Engineer in getting up projects of which there are several

3. The Dy. Commr. also proposed to appoint

two

two Taluks to each
 Surveyor, whose duty it
 is to plan estimate, and
 supervise all works required
 within his Taluks, under
 the general engineering
 control of the Ass^d Engineer;
 and to place the
 Maistry of each Taluk
 under the control of
 the Surveyor.

4. The following statement
 shows the existing staff
 of the Engineering Branch
 of the District, together
 with the proposed
 establishment.

5. The ~~former~~ states that
he delayed submitting
the proposal for increase
until he had an occasion
to visit the District and
discuss the matter personally
with the Dy Commr. He
thinks that it would be
true economy to add to the
cost of the establishment
and thus secure the more
perpetual and careful
examination of proposals
and preparation of estimates
He observes that the care of
the Imperial roads take
up much time and attention
of the District Field Engineer
upon whom Major Armstrong
was obliged to impress
the necessity of not covering
on the average more than
ten days out of the thirty
to Imperial Road inspections.
and that Mr Nagarhar,
who

who is a pains-taking
Engineer, nervously anxious
to do his duty, should
be naturally disposed
to take much trouble
with main lines of road,
the condition of which,
whether good or bad, lies
open to the observation of
every officer of Government
who travels through the
District.

7. The Chief Engineer
who was consulted on the
point stated that increase of No 231 of the 20th January 77.
in establishment in
the Chitaldero of District
had by no means resulted
in an increase of expenditure
which

1871-72. amounted
to Rs 3,1832 with an estab-
lishment costing only
12 per cent, whereas in
subsequent years, altho
there has been an annual
increase in establishment,
the expenditure has
nevertheless been consider-
ably below that amount
and in 1875-76 with an
establishment costing
exactly three times as
much or 36 per cent, reached
Rs 29,931 only altho the
year was one of partial
drought & Relief Works
were sanctioned.

8 Lieut Col. Johnson
added that in 1876-77
the expenditure had
reached a much larger
sum Rs 40,926 on works,
against 9,578 on Establish-
ment and if it was
likely that any sum
like this expenditure
be maintained

* not including expenditure on
Imperial Roads for which
establishment was provided
from P.W. Department.

in the District, some addition to the Establishment to appeared to him desirable, otherwise extra temporary supervision might be sanctioned, as the Establishment already permanently employed appeared too large for the ordinary expenditure, viz: 36 per cent thereon. —

9. In this office order of the 24th January/77, viz 194 it was observed that the necessity for the permanent employment of such a large establishment as that proposed by the Commissioners had not been sufficiently demonstrated, but in sanctioning the establishment temporarily for 6 months from 1st Feb 77 the Commissioner was requested to point out the source from which the charge could be met.

10. In reply, the Comm^r submitted* copy of the letter of

Deputy Commissioner's letter
No 1150 of the 1st February/77
in which, Major Armstrong
stated that there being
no ~~excess~~ men in his
District, to hold the posts,
he requested the Chief Officer
to nominate and send men
from Bangalore, and as
the men ~~would~~ not probably
arrive before the 1st March,
salary for one month of the
off year 1876-77 might be
met out of savings under
Establishment, and provision
for the remaining 5 months
would be pointed out as
soon as the Budget for 1877-78
was made.

The above suggestion
was approved in this Office
No 758 of the 19th April/77.

12. With his rocket notes
in the margin, the Commissioner
submitted a copy of Circular
by Commissioner's letter,
in which the latter Office
stated that the term of
6 months has been ordered

No 387 of the 14th July/77

194 of the 24th January, '77
would expire on the 31st
July '77, and of the establishment
sanctioned in the said
order, the posts of one Surveyor,
Draftsman & 2 Lascars
were still vacant owing
to want of competent men,
and as the establishment
sanctioned was urgently
required, the Chief Commr's
sanction might be obtained
for the retention of the establishment
till the famine was over.

The retention of the
temporary establishment
proposed was sanctioned $\times$ No $\frac{1275}{681}$ of 25th July '77.
for another 3 months from
1st August last, & the Commr
was requested to point out
the source from which their
salary could be met.

13. Again, the Commissioner
stated that at the Dy Commr's $\times$ No $\frac{1222}{196}$ of 25th July '78.
reported that the services
of the 2 Surveyors & 2 Lascars
were absolutely necessary
their retention might be
sanctioned till the end
of the last offl. year; & stated

14. The Reapportionment was ordered to be carried out.
15. In his letter to the

order of the Dy. Commissioner
no. 43 of the 19th April/78, the
Principal & District Officers
of the Districts solicit
that the services of the
Sanitation Surveyors who
had given satisfaction in
the discharge of their duties
might be retained. For
as no more as the permanent
Surveyors were either sick,
slow or unable to take the
work already entrusted
to them & as their service
will not be available
for some time to come for
the preparation of the map
the District Officer has
already been entrusted
to him & the other would be
given to him with the Dy.
Commissioner's permission. His Raja
trusts that the Govt.
will not need to sanction
any temporary hands.

They were pleased in the beginning to sanction three-

from 1st April /77, has not done so upto date.

Again, in sanctioning the retention of the temporary establishment for a further period of 3 months the same information was called for.

* Vide para 12 of the memo.

20. The Commissioner subsequently solicited sanction to the retention of the services of 2 Surveyors & 2 Lascars, till the end of the past official year, and stated he would submit a Reappropriation statement providing funds to meet the charge.

21. Sanction was not accorded to the Commissioner's proposal, but he was simply informed that the Reappropriation statement promised would be awaited.

Dated 27th May 1976

To
The Commission

Sir,

I have the honor to submit
the following proposal for a small
increase to the Engineering Staff of the
District Local Fund, for consideration.

The total Budget Amount of
this District for the current year is
Rs 98,679. The existing Engineering
Strength amounts to Rs 94,600 of which
Rs 18,460 is debitable to Imperial Re-
venue and Rs 8,200 to District Fund.

The strength consists as well
observed from the appended Statement
of 1 Local Fund Assistant Engineer, 2nd
urveyor and 8 maintainers & 4 cars.

The Local Fund Engineer has
recently had additional work thro

upon his hands, viz, the charge of the Imperial lines of Road from Hissur to the Bellary frontier and from Chitaldroog to Malebenore on the Hunioa frontier -

There are but two Surveyors to assist this officer in the work of estimating, planning and general supervision, and it is found exceedingly difficult to efficiently supervise, and carry out works in every part of the District. of which there are a large number of one sort and another and which steadily increase with every running year.

The Quaietries are only competent in preparing the work trifling estimates and looking after works left for the more important works, it is absolutely necessary that two more Surveyors should be appointed as Assistant Surveyors on Salaries of Rs 260, and Rs 150, those

X Rs 2580 by

2 class cars & a
draughtsman - see
infra.

allowance for 1 mile. This addition
to the present establishment
would not be Rs 1800 per annum
over the present charges and the
General Fund of the District can
well afford it and the percentage
of the Establishment would only
be about 10.6 -

If sanctioned I propose to
apportion 2 Taluks to each Surveyor
and his duty would be to estimate
plan and supervise all works re-
quired within his Taluks, under
the General Engineering Control
and supervision of the Assistant
Engineer.

The Ministry of each Taluk
would be under the Control and
supervision of the Surveyor.

The arrangements would
I fear confront severe works
being carried out systematically
and efficiently and to the satisfaction

of the Committee and to myself
as District Officer -

The proposal now submitted,
I may add, has been freely discussed
with the majority of the members con-
sisting the Committee and the Local
Funds Assistant Engineer -

No 231

Mysore Public Works Department

OFFICE OF THE

Central Office

Bangalore 20th January 1877.

From,

Lieut. Colonel W. R. Johnson

Temporary Chief Engineer of Mysore

To,

The Secretary to the
Chief Commissioner of Mysore
Dyut Department.

Sir,

+ These were
sent to the
Chief at the
15 Oct last.

I, II and III

I have the honor to return herewith
the papers forwarded for my opinion and
return, regarding an increase in the District
Fund establishment in Chitaldroog. To enable
me to form an opinion on the matter, I
ordered the officers to be prepared of the operation
during the last five years in Chitaldroog
and other Districts, copies of which I forward
herewith. —

II. From Statement No I and its abstract,
it will be seen how much more expenditure
some Officers manage to get out of their esta-
blishment than others. — Further, that in
the case of Chitaldroog increase in establish-
ment has by no means resulted in an increase
of expenditure. The latter being in 1871/72 Rs
34,832, with an establishment costing only

12 per cent, whereas in subsequent years although there has been an annual increase of establishment, the ex:gratia has nevertheless been considerably below that amount, and in 1875/76 with an establishment costing exactly three times as much or 36 per cent. reached Rupees 29,751 only, although the year was one of partial drought, and relief works were largely sanctioned. --

III. This year, the expenditure has already reached a much larger sum, being 70,936 on works, against 9,578 on establishment (not including expenditure on Imperial Roads for which establishment is provided from the Public Works Department). - If it is likely that anything like this expenditure will be maintained in the Districts, some addition to the establishment would appear desirable, otherwise extra temporary supervision might be sanctioned as the establishment already permanently employed appears too large for the ordinary expenditure, namely 36 per cent thereon. -

Statement No. II

Chitaldroog District Establishment

The causes of fluctuations are briefly noted. —

In 1871/2 — The Staff of the Establishment was as follows. —

- 1 Surveyor.
- 4 Maistries
- 1 Clerk
- 4 Mootsuddies

Percentage of Establishment to works — 12.

In 1872/73

In addition to the above

4 Maistries and

5 Mootsuddies } services of one Mootsuddi were sanctioned since dispensed with

Percentage — 21.

The increase is due to the extra Establishment sanctioned

In 1873/74

1 Extra Maistry was entertained. (Services dispensed with on 10th April 1875.)

Percentage 24 6

Travelling allowances were sanctioned for temporary Maistries in this year (drawn from July/73) hence the increase

In 1874/75

One Assistant Surveyor at Pimpri was sanctioned in this

Percentage 26

Travelling allowances for temporary Maistries were drawn for the whole year which accounts principally for the increase. —

Sir,

With reference to your No 798 of the 25th instant giving cover to copy of the Chief Commr's Res proceedings No 191 of the 24th ultimo sanctioning temporarily for 6 months the entertainment of the Mangrath noted Establishment, I have the honor to state that there being no efficient men in this District to hold the posts I have this day requested the Chief Engineer at Bangalore to nominate and send the men at his earliest convenience

As the men will not probably arrive before the 1st proximo a provision for only one month's salary vizt Rs 215 will have to be shown, for which there is a saving in the District Fund Budget under the head "Establishment" as particularized in the Mangrath provision for the remaining 5 months will accordingly be provided out as soon as the next year's Budget is received & sanctioned.

Deputy Commissioner no 101 dated
13th Instant regarding Temporary
Surveyor Pringay Pilli-

Has the honor to report that
since Pringay Pillay's appoint-
-ment, he was able to prepare plans
& estimates for 12 miles out of
46 miles of road from Chellakere
to Pongor, besides tank estimates
and other miscellaneous works,
he has now in hand 2nd part (of
another 12 miles) of the project.
Probably the Surveyor shall
require six months to complete the
whole project.

Res.

2 Refs to being to the notice of the Deputy
Commissioner that although great
deal of work has been carried out
on the new trace between Piripon
and Rodroog owing to the paucity
of hands, the survey of the line
has not yet been commenced,
and the undersigned would propose
to entrust this to the Surveyor for
getting up its project.

3 The permanent surveyors are either sick, slow, or unable to get through the work already entrusted to them; that their services will not be available for some time to come for the preparation of the above mentioned two road projects, and therefore the undersigned would propose for the consideration of the Dy Commissioner that the present Temporary Surveyor who has given satisfaction in the discharge of his duties may be retained for one year more. The undersigned trusts that the Government will not grudge to sanction one temporary hand where they were pleased in the beginning to sanction three.
